> • Type abbreviations rather than complete book titles (e.g., *ps* for *Psalms* or *eph* for *Ephesians*).

> • Type an Arabic or Roman numeral before books of more than one volume (e.g., *1 Samuel* or *II Kings*). To type a number, hold ☆ and press a numbered key.

> • Some book titles, such as *Numbers* and *John*, are also valid search words. When you search for one of these ambiguous words, a menu appears that asks you to select which type of request you want.

Whenever you see a superscript P (P) after a people or place name, you can hear and see its pronunciation. Try this example.

> ### Words You Can't Search For

The following words are too common to search for, either by entering them or by highlighting them in verses: a, an, and, are, as, be, but, by, for, from, he, her, him, his, I, in, is, it, me, my, not, O, of, our, out, shall, she, that, the, their, them, they, to, up, upon, us, was, we, were, with, you.
11

You can search for phrases—adjacent or nearly adjacent words in a particular order—by selecting an ordered search and a narrow search width.

An ordered search finds words only in the order that you enter them. For example, an ordered search for *Holy Spirit* will not find *spirit holy*.

The search width determines how far apart your search words can be in the Bible and still be a match.

1. Press (MENU).
2. Highlight *Ordered Search* on the Search menu.

```

Reading Footnotes

▶ Understanding Expansions

Each time that you expand a word search, similar words are added to your search.

The first time that you press (MORE), inflections are added (e.g., *believe* and *believed* to *belief*).

The second time that you press (MORE), compound and related words are added (e.g., *believer* and *unbelief* to *belief*).

The third time that you press (MORE), synonyms are added (e.g., *understand* and *surely* to *belief*).

When you expand a multiple-word search, words similar to any or all your search words are added.
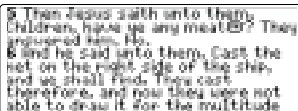

Note: Sometimes pressing (MORE) only once does not expand a search because your search word(s) have no inflections in this Bible. In that case, press (MORE) a second and a third time to expand your search.

Whenever you see a 🔲 after a word, that word has a footnote. These footnotes provide alternative translations, describe textual variants, and define obscure words. Try this example.

1. Find *John 21:5*.
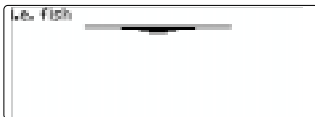

To learn how, read "Looking up a Bible Verse."

> 5 Then Jesus saith unto them,
> Children, have ye any meat🔲? They
> answered him, No.
> 6 And he said unto them, Cast the
> net on the right side of the ship,
> and ye shall find. They cast
> therefore, and now they were not
> able to draw it for the multitude.

Notice the footnote marker.

2. Press (NOTE) (the yellow key).

> i.e. fish
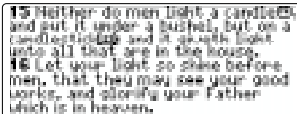

3. If needed, press ⬇ to read the footnote.

4. Press (BACK) to go back to the verse.
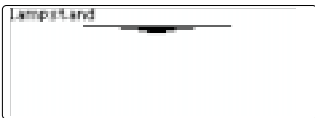

Using Bookmarks

Sometimes more than one🔲 appears on the screen at one time. In that case, pressing (NOTE) displays the footnote of the first🔲.

To view the subsequent footnotes, press (ENTER) and then the arrow keys to highlight a subsequent🔲.

> 15 Neither do men light a candle🔲,
> and put it under a bushel, but on a
> candlestick🔲 and it giveth light
> unto all that are in the house.
> 16 Let your light so shine before
> men, that they may see your good
> works, and glorify your Father
> which is in heaven.

Then press (ENTER) to view its footnote.
